

2012 NorthstarMLS SQI Survey Results

NorthstarMLS recently conducted its seventh annual Service Quality Index Survey. The survey garnered overall subscriber feedback. Recipients were selected on a completely random basis.

The results we received this year, and in the past, are invaluable to us. They help us understand what we can do better to serve you and remain one of the most well respected MLS's in the country. We will be breaking down survey results throughout the course of the next few weeks. Stay tuned.

This Infographic visually summarizes the 2012 NorthstarMLS SQI Survey Results. *Click on the image below for a larger view.*
