

OneHome™ Agent Portal

What is the Agent Portal?

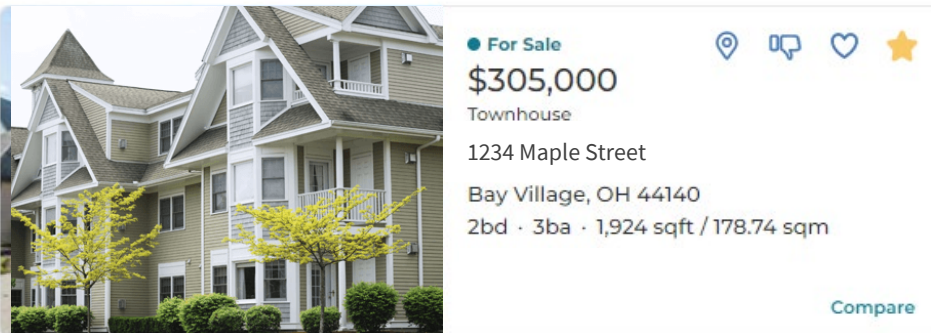

The new OneHome Agent Portal from CoreLogic® gives real estate professionals their own view into OneHome, helping them collaborate with clients better than ever.

Agents can view a **dashboard** of all their OneHome contacts, **recommend** properties to clients directly, and **preview** what their clients see when they visit OneHome, including properties they've considered, favorites, saved searches, their progress in the planner, and more.

Making Recommendations

Agents can offer guidance and a more curated home search experience by **recommending properties** to clients directly. Just select the **star icon** to make a recommendation.

Agent Pick

Agent-recommended properties are highlighted as an Agent Pick on **all property cards and on the property details page**. Clients can also find their agent's recommended properties on the favorites page under Agent Pick. The client needs to create an account and be logged into OneHome to see Agent Picks.

Contacts Dashboard

Agents can see all their OneHome contacts at a glance using the new **contacts dashboard**. The dashboard makes it easy to **search and sort** contacts by name, email, and activity level. Agents can use the **preview feature** to view what their clients see when they visit OneHome.

Agent Portal Access

The new OneHome Agent Portal works on any device (mobile and desktop) for maximum productivity. Agents can access their portal through:

- Agent preview mode / BCC'd emails
- “Open in OneHome” links in Matrix™
- Visiting agent.onehome.com
